Worksheet for Science Grade 7
Quarter 2: Lesson 7 (Week 7)
S.Y. 2024-2025

This material is intended exclusively for the use of teachers participating in the implementation of the MATATAG K to 10 Curriculum during the School Year 2024-2025. It aims to assist in delivering the curriculum content, standards, and lesson competencies. Any unauthorized reproduction, distribution, modification, or utilization of this material beyond the designated scope is strictly prohibited and may result in appropriate legal actions and disciplinary measures.

Borrowed content included in this material are owned by their respective copyright holders. Every effort has been made to locate and obtain permission to use these materials from their respective copyright owners. The publisher and development team do not represent nor claim ownership over them.

Development Team

Writers: Jhayzel P. Jocson (Leyte Normal University)
Validators: Genelita S. Garcia (Philippine Normal University)

Management Team
Philippine Normal University
Research Institute for Teacher Quality
SiMMER National Research Centre

Every care has been taken to ensure the accuracy of the information provided in this material. For inquiries or feedback, please write or call the Office of the Director of the Bureau of Learning Resources via telephone numbers (02) 8634-1072 and 8631-6922 or by email at blr.od@deped.gov.ph.

LEARNING ACTIVITY SHEET

Learning Area:	Science	**Quarter:**	2nd Quarter
Lesson No.:	7	**Date:**	
Lesson Title/ Topic:	**Biological Organization**		
Name:		**Grade & Section:**	

I. Activity No.1: WORD SEARCH (10 minutes)

II. Objective(s): At the end of the lesson, students should be able to unlock vocabulary words and critical thinking skills through the completion of a word puzzle.

III. Materials Needed: written materials and worksheets

IV. Instructions:
Search for the missing word in the puzzle, refer to the word bank provided below:

V H C Y Q Z O C V M E R S K M
W M E L R K C M Y E L E B J A
O T L Q K I V G V T L S X V K
Z R L N T B O Z M S E B Y V R
M T G O O L L K G Y N U Y T F
Y O I A O I Y K D S A L C N R
V B T I N J T S G O G U Y B B
O L B A U I J A P C R B I N Y
G B K L E H S Z L E O O D C J
E C O L O G Y M Y U S M H R Y
B Z C I T L Z L Q P P E R G V
R Y J C D X T I H I H O F H F
K P P J Z U Y E X Z S Q P G J
S A X A D Q R N C L L P J P A
Y G B M A E Y T I N U M M O C

atom	biology	biosphere
biotic	cell	community
ecology	ecosystem	organelle
organism	population	

LEARNING ACTIVITY SHEET

Learning Area:	Science	**Quarter:**	2nd Quarter
Lesson No.:	7	**Date:**	
Lesson Title/ Topic:	**Biological Organization**		
Name:		**Grade & Section:**	

I. Activity No.2: Unveiling Biological Organization: Labeling Explorations (15 minutes)

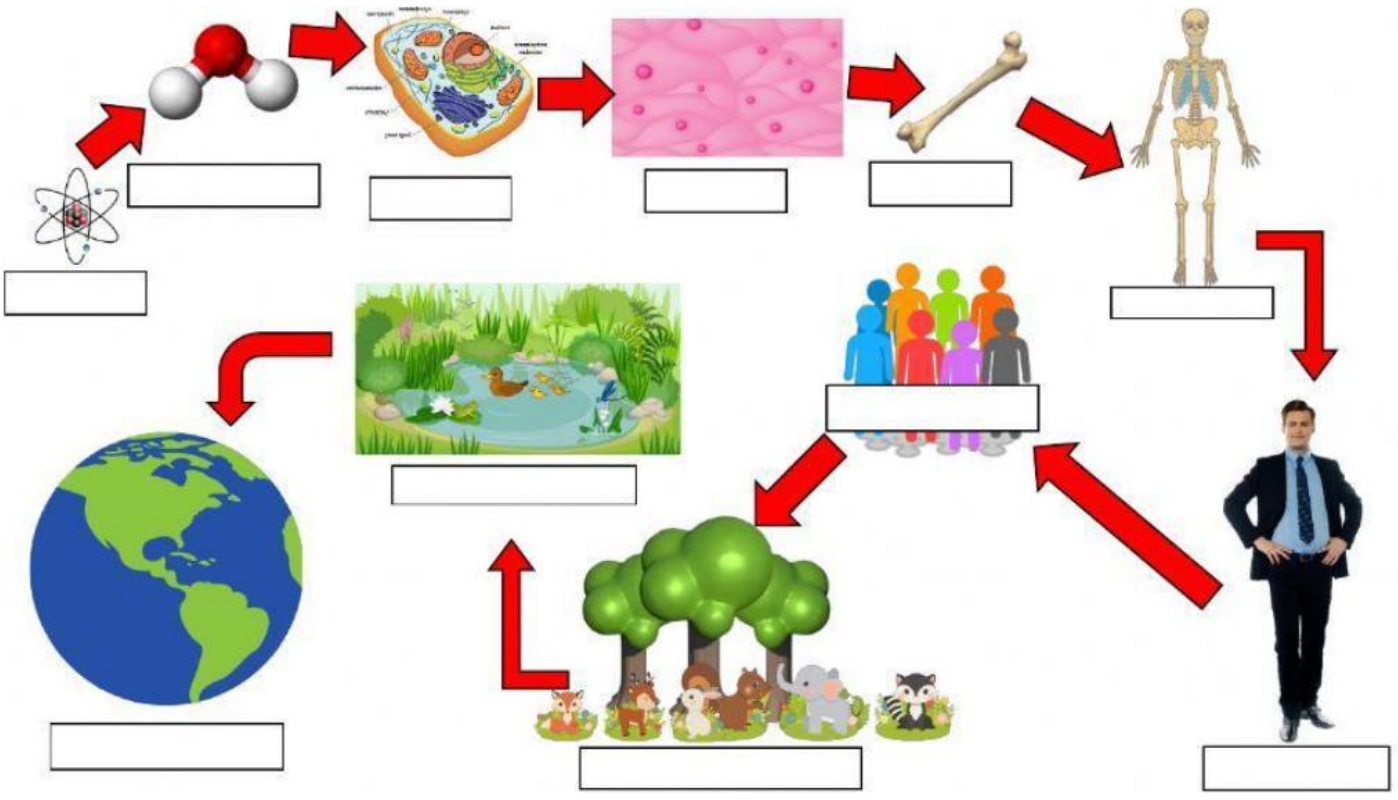

II. Objective(s): At the end of the lesson, students should be able to have a deepen comprehension of ecological concepts and relationships by guiding them through the process of accurately labeling a diagram

III. Materials Needed: written materials and worksheets

IV. Instructions:

Study the diagram below, label the exact biological organization by choosing it from the word bank provided.

atom	biology	biosphere
biotic	cell	community
ecology	ecosystem	organelle
organism	population	

LEARNING ACTIVITY SHEET

Learning Area:	Science	**Quarter:**	2nd Quarter
Lesson No.:	7	**Date:**	
Lesson Title/ Topic:	**Biological Organization**		
Name:		**Grade & Section:**	

I. Activity No.3: Deciphering the Hierarchy (20 minutes)

II. Objective(s): At the end of the lesson, students should be able to identify and arrange the ecological organization of an ecosystem and provide for an example.

III. Materials Needed: written material, phone with internet and worksheets

IV. Instructions:

1. List the following levels of biological organization from largest to smallest and give examples.

	Largest	**Example**
Atom	1. _____	_____
Biomes	2. _____	_____
Biosphere	3. _____	_____
Cell	4. _____	_____
Community	5. _____	_____
Ecosystem	6. _____	_____
Macromolecule	7. _____	_____
Molecule	8. _____	_____
Organ	9. _____	_____
Organ system	10. _____	_____
Organelles	11. _____	_____
Organism	12. _____	_____
Population	13. _____	_____
Subatomic particle	14. _____	_____
Tissue	15. _____	_____

2. Use the terms above to provide example of each.
   A. Give 4 examples of levels of biological organization that include the interaction between different species of organism.

      _____ _____ _____ _____

   B. Give 4 examples of levels of biological organization that are lower than a cell.

      _____ _____ _____ _____

   C. Give 4 example of level of biological organization that are lower than a multicellular organism but higher than an organelle.

      _____ _____ _____ _____

LEARNING ACTIVITY SHEET

Learning Area:	Science	**Quarter:**	2nd Quarter
Lesson No.:	7	**Date:**	
Lesson Title/ Topic:	**Biological Organization**		
Name:		**Grade & Section:**	

I. Activity No. 4: Macroscopic Marvels: *Exploring Levels of Biological Organization* (10 minutes)

II. Objective(s): At the end of the lesson, students should be able to identify the macroscopic level of Biological Organization by examining the diagram provided.

III. Materials Needed: written material, phone with internet and worksheets

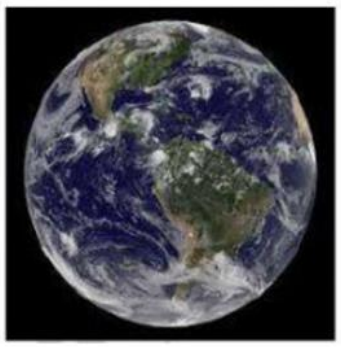

IV. Instructions:

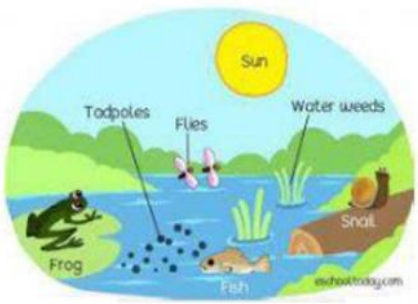

Examine the diagram and label the macroscopic levels of biological organization of an organism using the word bank provided.

Organism	Ecosystem	Community	Biosphere	Population	Biome

LEARNING ACTIVITY SHEET

Learning Area:	Science	**Quarter:**	2nd Quarter
Lesson No.:	7	**Date:**	
Lesson Title/ Topic:	**Biological Organization**		
Name:		**Grade & Section:**	

I. Activity No.5: Nature's Layers: Exploring Levels of Life in the Wild

II. Objective(s): At the end of the lesson, students should be able to observe and understand the different levels of biological organization present in a natural environment.

III. Materials Needed:

Field notebooks or paper
Pencils or pens
Magnifying glasses (optional)
Binoculars (optional)

IV. Instructions:

1. Choose a nearby natural area such as a park, forest, or field for your outdoor exploration.
2. Go to your small groups, each with a field notebook and writing materials.
3. Explain the concept of levels of biological organization, starting from the individual organism to the biosphere.
4. Your teacher will assign a specific area within the chosen environment for your group to explore.
5. Observe and record your findings at different levels of organization. Use your senses to observe individual organisms, communities, ecosystems, and interactions between different organisms.
6. As you explore, answer the prompt questions about what you observed.
7. After the exploration, gather the groups together and have each group share their observations and findings.
8. Present to class the different levels of biological organization you encountered and how they contribute to the overall functioning of the ecosystem.
9. Reflect on the interconnectedness of life within the natural environment.
10. Discuss to the class the importance of conservation and how understanding levels of biological organization can help in preserving ecosystems.

PROMPT QUESTIONS

1. What individual organisms do you see?

_____

2. How do these organisms interact with each other?

_____

3. What communities or habitats do you notice?

_____

4. How do these communities contribute to the ecosystem?

_____

5. How does the environment influence the organisms living there?

_____

Create a poster illustrating levels of biological organization during the outdoor activity.
